

Resolution of the 6th National Climate Change Advisory Committee (NCCAC) meeting 24th - 25th November 2016

The National Climate Change Advisory Committee (NCCAC) seating at Imperial Botanical Beach Hotel Entebbe from 24th to 25th of November 2016 deliberated, agreed and endorsed the Methodological Approach of a Forest Reference Level (FRL) for Uganda's Reducing Emissions from Deforestation and forest Degradation (REDD+) programme as per recommendation of the National Technical Committee (NTC) meeting held on 26th and 27th July 2016. The endorsement of the NCCAC is summarised below:

1. Use of a historical rolling average being informed by the available data on historical forest change.
2. Use of a 15 years Reference period for the current period (2000 to 2015).
3. Activities to be monitored both on private land and protected areas will include
- Deforestation, Conservation and Sustainable forest management of forests.

Details are provided in the minutes of this meeting and the technical paper "*Uganda's Forest Reference Level*" dated 20th November 2016.
