Total	40,932,614	2,046,631	-	5,415,385	33,470,599 *
--------------	------------	-----------	---	-----------	--------------

* Final total is different than the sum of the individual totals due to rounding

5. EMISSION REDUCTION LABELS

All TREES Credits listed in Section 4 used the High Forest, Low Deforestation Crediting Approach.

6. VERIFICATION OPINION

Aster Global confirms all verification activities, including objectives; scope and criteria; level of assurance; and the Monitoring Report's adherence to TREES and validated Registration Document, as documented in this report, are complete. Aster Global concludes without any qualifications or limiting conditions that the Program meets the requirements of ART/TREES. Aster Global applied a positive opinion that the Program meets the requirements of ART.
